

Quotation request form

We understand that some of our clients require a precise quotation and that the usual estimate procedure is not sufficient. Whilst we provide for this with this form we also recommend, where possible, using the less time consuming method of a written estimate.

Please note that our Conditions of service, available from ecojunk.co.uk, apply in addition to any conditions stated within this document or included within an issued Quotation.

A quotation issued by Ecojunk constitutes a price-binding agreement to undertake a clearance or collection at the specified property on a date or dates agreed to be mutually convenient to both Ecojunk and the potential client. It does not guarantee that we will be able to complete the clearance within a time period, although we always endeavour to do so. A quotation from Ecojunk is valid, subject to any noted exceptions, where a resultant booking is made without any

change whatsoever to the content of the details listed on the Quotation request form, for thirty days from the date of issue, and where each page has been correctly completed, signed and dated. Multiple requests for Quotations that relate to the same potential undertaking, or to a reduced or expanded part of a potential undertaking are charged at £35+ Vat. The first request is always free.

Your details

Name

Organisation's name (if applicable)

Ltd company or Charity number

Telephone number/s Landline _____ Mobile _____

Your home or registered company address

Postcode _____

Is your property hard to find or should we use a different entrance?

Your Junk

Outline the type of Junk do you want us to collect

Are there any other unusual or potentially hazardous items?

Please use the last page to list a complete inventory.

Are there any televisions, fridges, fluorescent bulbs, chemicals, tins of paint, computer monitors or televisions? (Specify how many of each)

How many people (if any) are available to assist us?

Date ___/___/___

Where is your Junk?

Where is it?

What floor is it on? Is there a lift?

Will we need to carry it further than the length of a typical house to load the truck? If so roughly how far is it and how spread out is it?

Is parking problematic and/or where will we be able to park?

Other information

Inventory

In order for us to be able to provide you with a quote it is vital that every item is listed separately, unless it is a part of a collection of items within a container that is already listed. Please feel free to describe items collected together as “2 medium size box of computer parts” or “3 small boxes of crockery”

Please highlight large, difficult to move or fragile items and specify exactly where they are in the building or outside and how many flights of stairs there are in between their location and where the truck can park.
